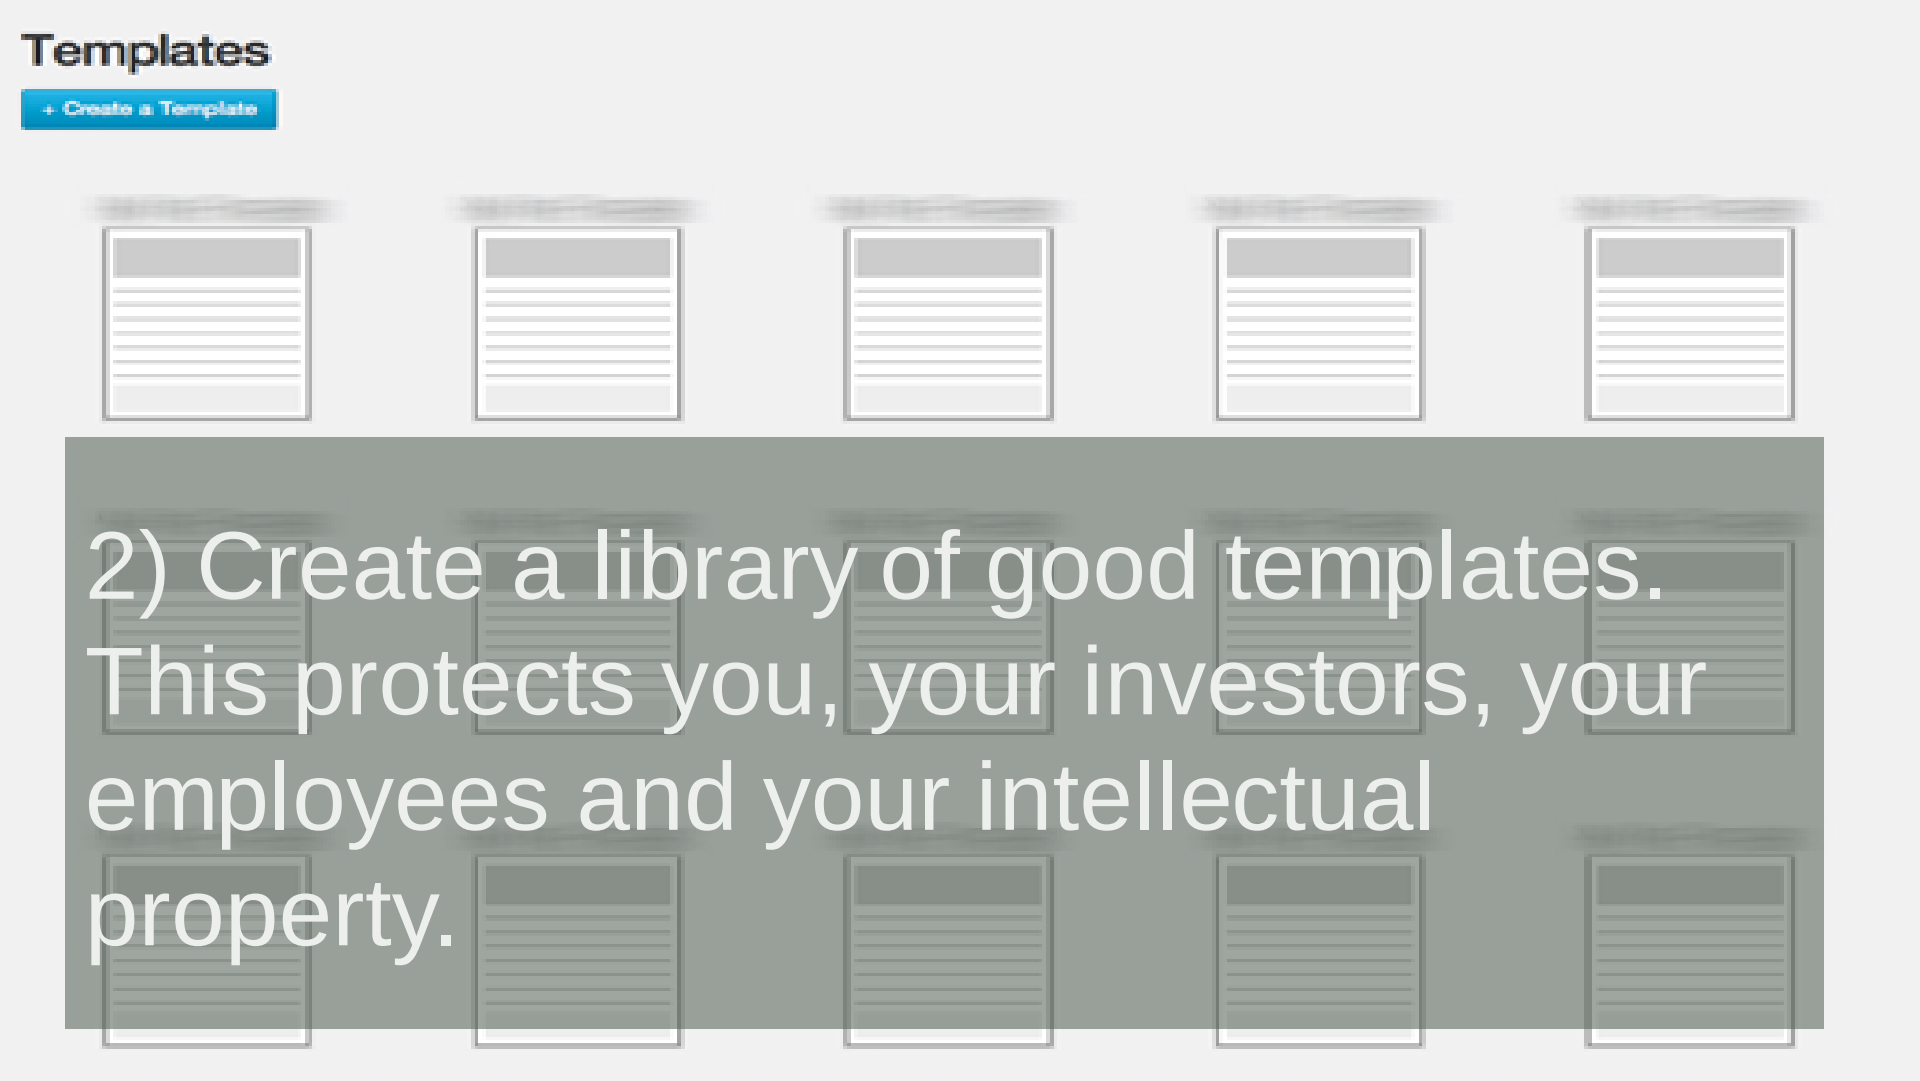
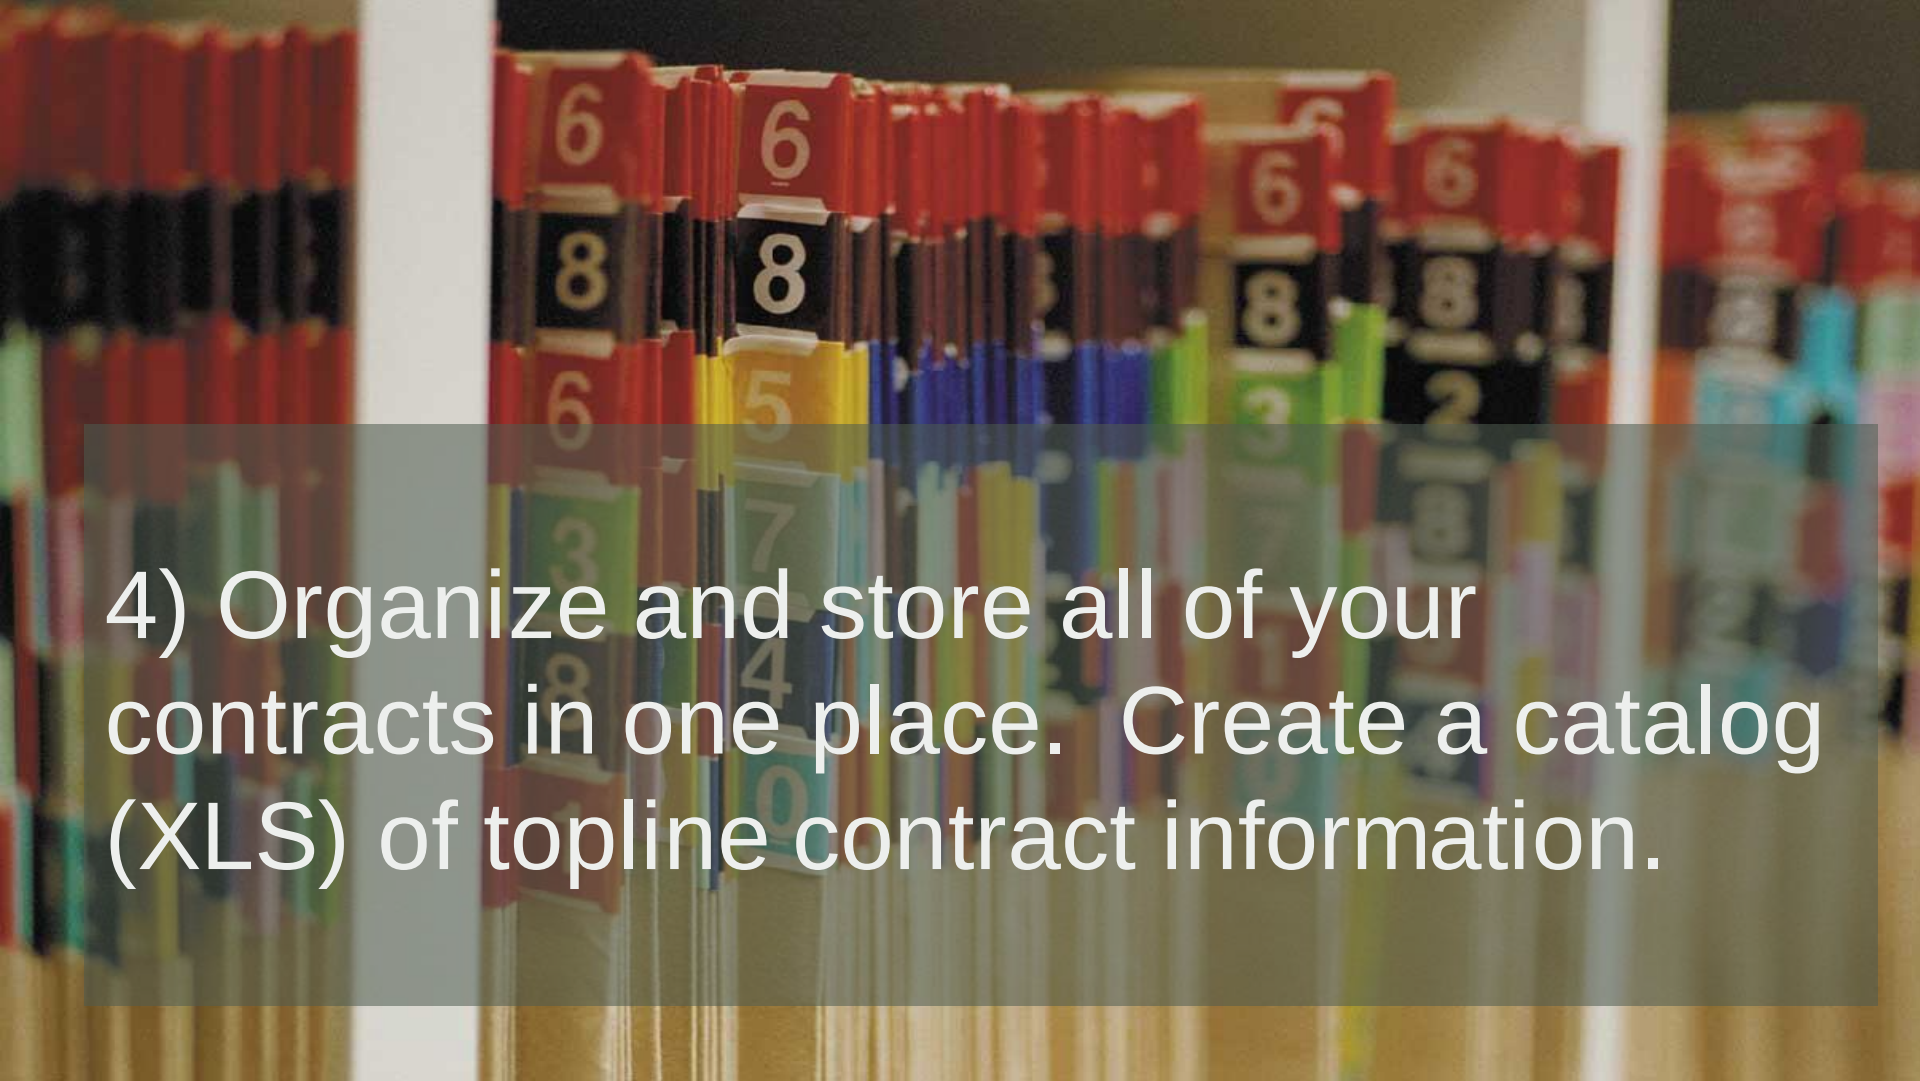
Points to Consider

1) Begin Preparing for Exit on Day One.



2) Create a library of good templates. This protects you, your investors, your employees and your intellectual property.

3) Have an attorney walk you through basic contract structure and principles. Include your sales team if possible.



4) Organize and store all of your contracts in one place. Create a catalog (XLS) of topline contract information.

5) The Payoff - Due Diligence Efficiency & Confidence

We #InventTogether
Thank You.
