# Is it possible to create a large business without outside capital?

Sure, but...

(Lifecycle Dynamics of Venture Capital report, Duke University)

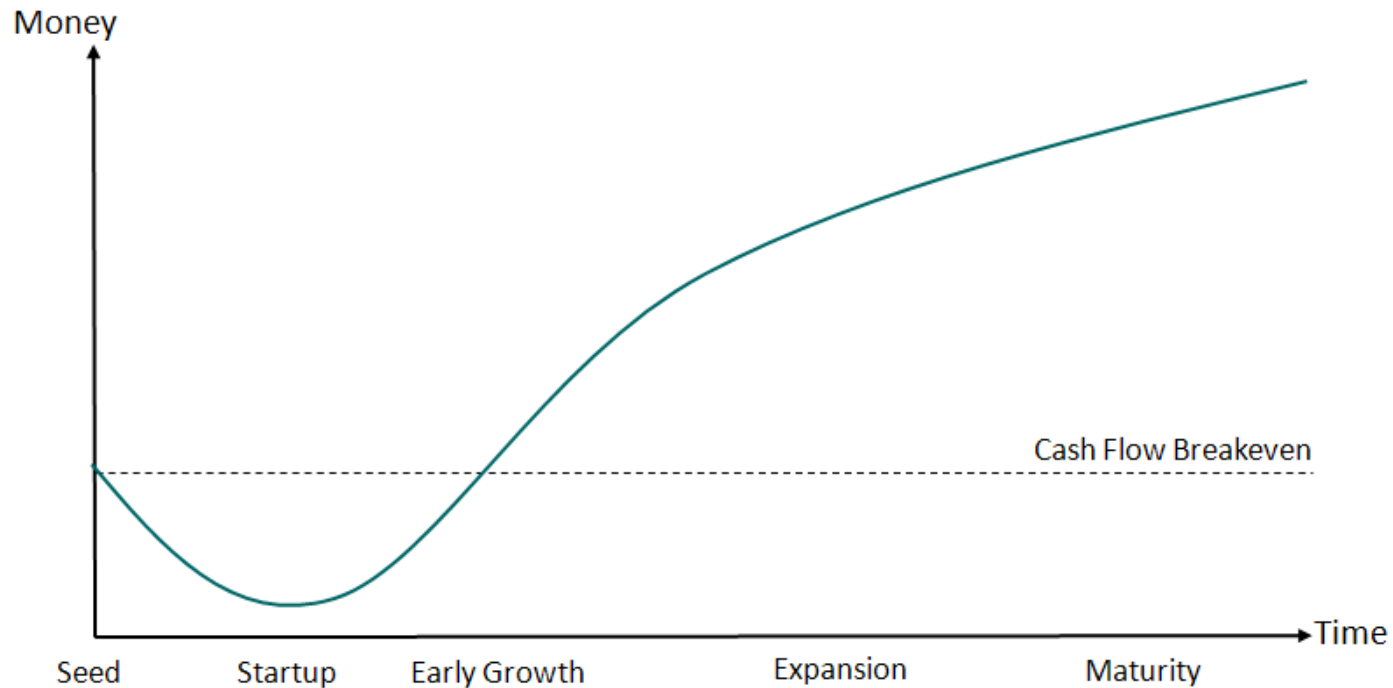

VC backed firms avg. **6X** the number of employees compared with non VC-backed firms, ten years after inception

VC backed firms avg. **5X** total sales compared with non VC-backed firms, ten years after inception

## Where? When? How?

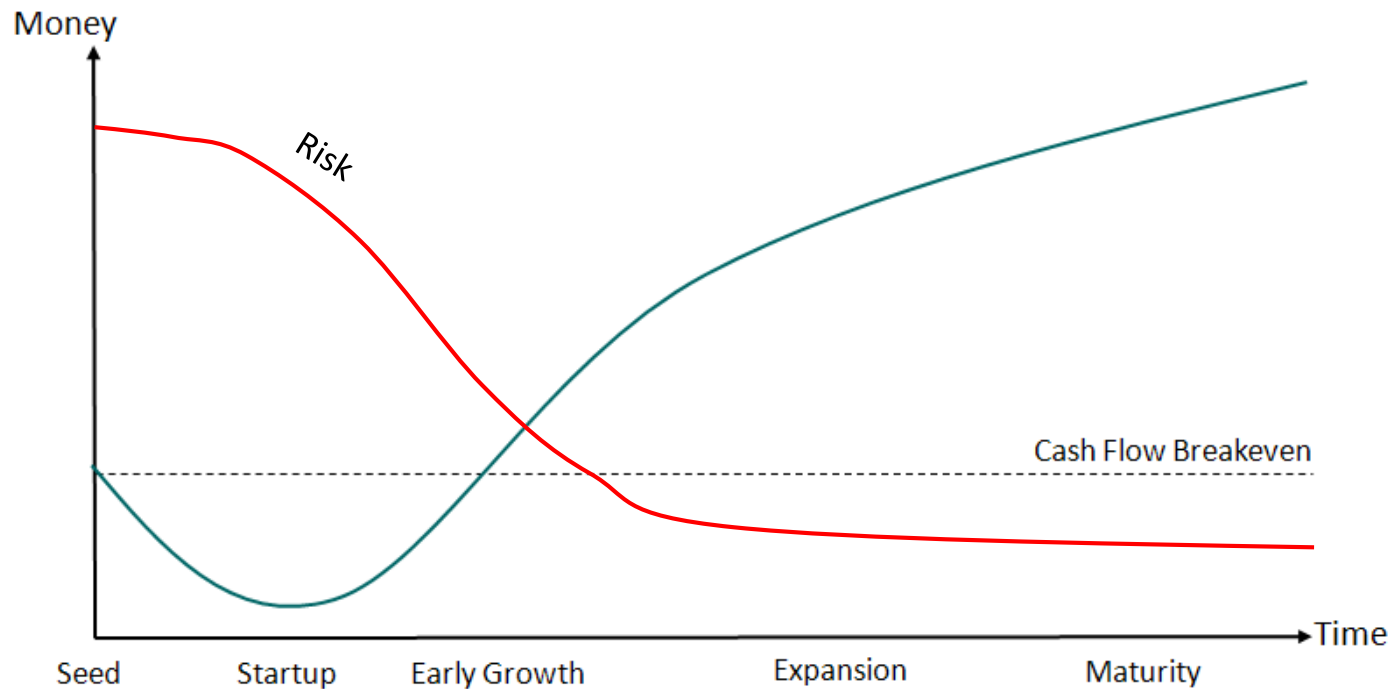

Where to get this capital, when to raise it, and how much to raise are critical in determining a new venture's success

- Like shifting gears in a car

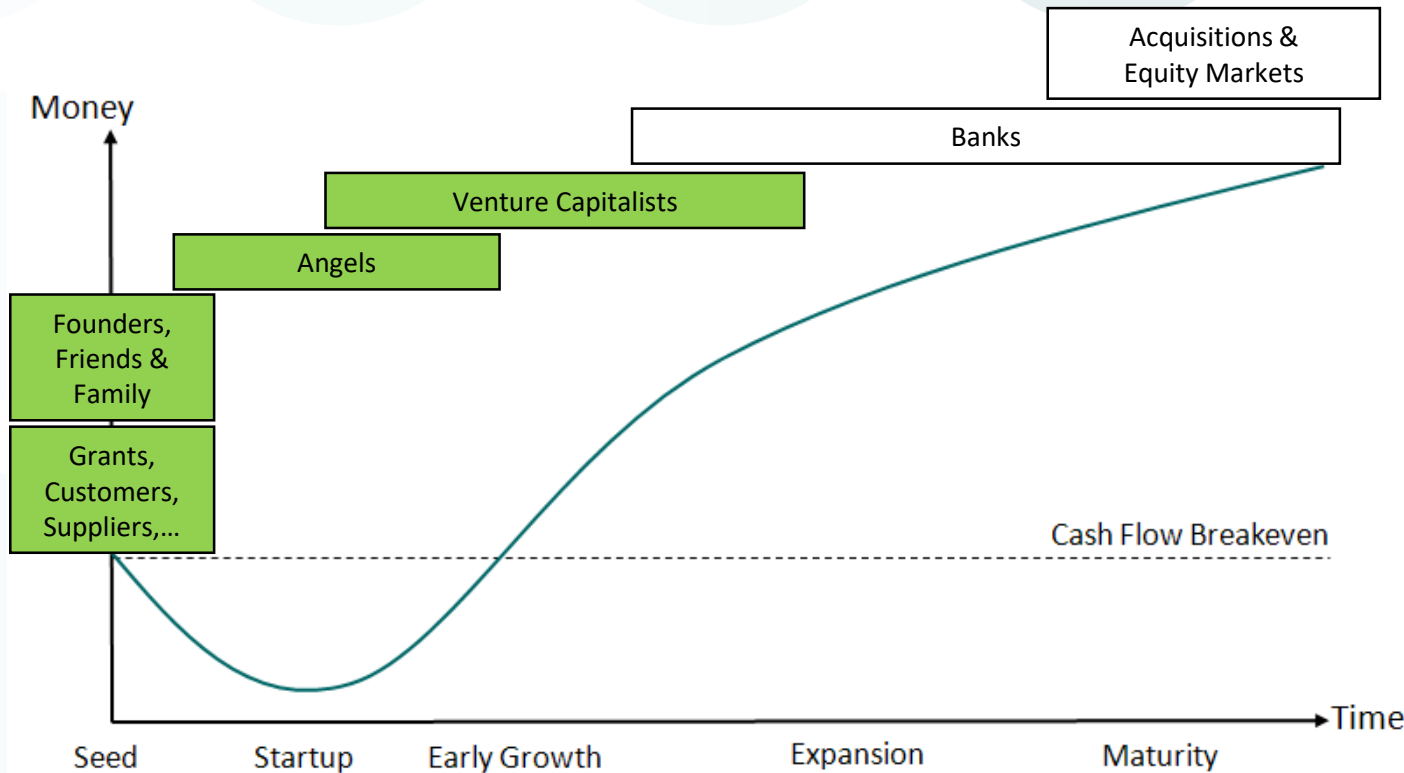

# Where? When? How?

As a company matures, risk diminishes, and the universe of potential backers increases

# Where? When? How?

Although there is no “right” way to finance a venture, different financing sources focus on the various stages of a business’s lifecycle
