About Hilltop Bio

Mission: Provide therapies that regenerate and restore full functionality and long term health

Vision: Change the way vets treat and practice veterinary medicine by incorporating regenerative therapies in to their everyday treatments

Problem: Find a way to use regenerative therapies that is cost effective, easy to use, room temperature and most of all effective

Solution: Regenerative matrix using amniotic allografts at room temperature

Challenge: Funding and finding the path forward

Steps to Funding

- Time Management
- Perseverance
- Patience
- **Network**
- Learn & Listen
- Mentors & Champions
- Craft a good story
- Accept Criticism
- Pitch
- Repeat...

Milestones to Funding

01

Learn

- Seminars/Classes/Office Hours
- Scholarships
- Mentors
- Self- Motivation

02

Prepare

- Ask Questions
